This week's message is a short, but important one. Be safe and be courteous. Instruct your teens and renters to be courteous and obey the laws and if you see something awry, report it to the police or call the

**Confidential Tip Line:

Throughout the week, I often get comments and requests to post reminders from residents who observe activities of concern.

Fishing enthusiasts are asked to be mindful of fishing hooks left on the beach.

After a rain and heavy wind, surprisingly enough, the current at the southern end near the spillway can and did create a problem for two young boaters recently, so please stay clear of the spillway.

Please don't throw the goose poop into the lake waters and if you see underage drinking on the rafts and beaches along with disorderly behavior, please contact the police

and if possible take a picture so we can address it appropriately with parents.

If walking at night, it is a good idea to have a flashlight handy so drivers can see you.

In January 2013, the Town of East Haddam did initiate some local road-name changes to facilitate emergency management procedures and response. If you live on Hill Top, your road is now called Hay Field Road and Town Road residents are now living on Lake Hayward Town Road. Please make a note of this. It is especially important when calling 911 for emergency services.

*Editor's note: We pay taxes to East Haddam, but the US postal service considers us to be residents of Colchester (zip code 06415). Anything mailed to your street address in East Haddam (06423) will be returned to sender as "undeliverable".*

**NOTE: Change to August Calendar**

The August calendar in last week's newsletter had a band booked as "tentative" for August 24th. There will be no band that night. Instead, the band Sky Walk will play at 7pm on August 17th following the Meatball Cook-off.

**GARDEN CLUB**

The garden club would like to thank Linda for the rose bushes around the first beach flag pole in memory of her father Donald James.

## SHERLOCK HOLMES RETURNS

Sherlock Holmes returns to Gillette Castle this summer thanks to a grant from Connecticut Humanities.

Gillette Castle, located at 67 River Road in East Haddam, was the home of William Gillette, a famous Victorian actor, director, and playwright who created the detective Sherlock Holmes character for stage.

Gillette Castle State Park visitors are invited to become the studio audience for a live-action radio drama “Sherlock Holmes and the Adventure of the Speckled Band.” Free performances will be held twice daily on Saturday and Sunday afternoons until August 11. Four actors will portray all the characters and sound effects, using the actual 1930 script that William Gillette used for the first-ever Sherlock Holmes radio broadcast. The 30-minute shows, presented at 1:00pm and 3:00pm, will be held outdoors just steps from the Castle. The public is invited to sit on the bleachers or bring blankets or chairs. (If raining, the performance will be cancelled.)

For further information, please visit [www.EHSCO.org](http://www.EHSCO.org) or call 860-873-3521.

The Interior of Gillette Castle is open for tours from Memorial Day Weekend to Columbus Day from 10am-5pm. There are hiking trails on the grounds, some of which follow, over trestle and through tunnel, the actor’s three mile long narrow gauge railroad.

## HISTORICAL FILES

### The Dark Day

Connecticut is no stranger to epic natural events. Since 2010, the state has had an earthquake, a blizzard, a hurricane, a Frankenstorm, a freak October snowstorm, floods and several tornadoes. It seems that the “Storm of the Century” hits us once a year.

One of the more unusual occurrences, however, is known simply as “The Dark Day.” On the morning of May 19, 1780, the sky grew so dark all over most of New England and parts of the Northeast that “everything bore the gloom and aspect of night,” according to *Our First Century*, (1876) by Richard Miller Devens. The darkness became noticeable a little before eleven o’clock. About noon it became necessary to light candles, and these were needed through the remainder of the day. Many wondered if it was a sign from God.

As it turns out, the darkness was the result of a Canadian forest fire, compounded by a thick fog and cloud cover. In 2008, researchers examining tree rings in the Algonquin highlands of southern Ontario discovered evidence of a massive fire that had occurred there in 1780. Great columns of smoke wafted into the upper atmosphere, which affected the sky hundreds of miles away in New England. It’s a phenomena that has also been observed in the wake of large-scale natural disasters such as volcanic eruptions.

See “Damned Connecticut” website (<http://www.damnedct.com>) for more information.
