Message from the President: Thanks for a great season

For the final edition of this summer-season newsletter, I am really at a loss for words. I understand this is hard to believe! So I am closing with the assurance that the board will stay the course, follow through on important initiatives and keep in touch in the offseason.

You will see in the "Save the Date" section on Page 3 that I have scheduled two town hall meetings for next year for an opportunity to gather and have open discussions less formal than our regular association meetings. I will continue to keep you posted on the activities of special committees and welcome your continued comments and questions.

My personal thanks to each member of the board and chairs of special committees for serving with passion, humor, and patience. The best is yet to come!

Also, there has been some talk amongst some year-rounders and locals to plan for a final pot luck later in the fall. If you think this is a good idea, please write to a member of the board or check in at lakehaywardct@gmail.com.

Tax interest adds up

Social and rec: A bittersweet end to a great summer and many great times

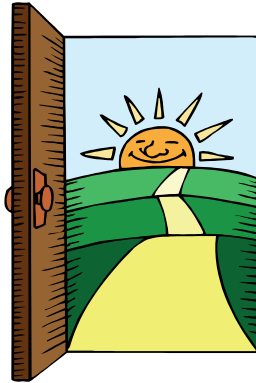

By Linda Nuzzo

I cannot believe how quickly this summer has gone by - and what a beautiful summer it was.

This is also my last newsletter as part of the social and recreation committee, so it's a bittersweet time for me. I want to thank so many people; there are probably not enough pages in the newsletter.

Thanks to all the volunteers who helped with all the social and rec events all summer long. Without your generosity, there would have been no kiddie bingo, arts and crafts, kiddie campout, Lego night, fishing derby, ice cream social, junior chef, swim Olympics and more.

Last weekend we celebrated with Beach Games and the Carnival. I had a great time and I hope you and your family did as well. I would like to send out a couple of special thank-yous.

To my neighbor Charlotte Basney who manned the food ticket table all day, helped fill water balloons, goodie bags and more. My mom, Marie, who sat beside Charlotte for the entire day

and worked on all the signage for the event. My sister, Shelly, who inflated all the inflatables we had ... and then some.

Thanks to Bob and Bonnie Sudell for the movies on the beach, a wonderful Ladies Night and Night at the Races."

Thanks to the food team: you guys are great. You did a wonderful job. The food was great and I think I tried almost everything. Thanks to Linda, Fran and Lenny. You gave the kids so much joy with your

nail painting, cupcake decorating and face painting.

A special thank you to Diane Nelson, a great friend and dedicated volunteer who never, ever says no, laughs whenever I say "Diane, I have an idea" and is always up to a challenge, whose energy and enthusiasm is enviable.

And to our husbands, Steve and Phil, who supported us completely for the last two years. We could not have done it without your help.

And thanks to the entire board for the last two years. I have learned so much from you. You are truly an amazing group of people. While I won't miss the early Saturday morning meetings, I will miss all of you.

OK, one more band this weekend. Let's blast the summer out. See you at First Beach.

**PROCEDURE FOR SERVICE ACTIVATION
 OF SEASONAL CUSTOMERS**

SPRING

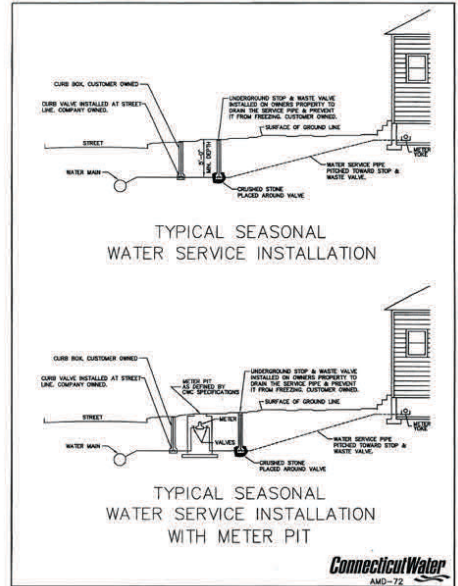

- To ensure that water enters the premise only under the customer's control, please ensure that the customer owned "Stop & Waste" valve (or other isolation valve) is in the "OFF" position.
- Connecticut Water Company (CWC) will activate the service up to said customer owned valve. CWC will ensure that water is not flowing into the subject dwelling before leaving the company owned valve in the "OPEN" position. Should the field service representative find that water is "running" into the subject dwelling, CWC will leave the company owned valve in the "OFF" position, and the customer of record will need to schedule an appointment for activation. Said appointment will be subject to CWC availability after completion of activation of all other seasonal accounts.
- Once CWC activates service, the customer, or customer's agent, will then be able to turn on the customer owned valve at his/her leisure.

**PROCEDURE FOR SERVICE DEACTIVATION
 OF SEASONAL CUSTOMERS**

FALL

- The customer shall be responsible for closing the "Stop & Waste" valve and for draining/winterizing the plumbing of the subject dwelling.
- CWC will turn the company owned valve to the "OFF" position to deactivate the service line from the main. CWC will also, at this time, read (and remove if applicable) the meter for final billing.

* The "Stop & Waste" valve is constructed in such a manner so that, when in the "OFF" position, it stops the flow of water into the home and drains the service line from the subject dwelling to the valve. See schematic on the opposite side of this sheet for typical seasonal service layout.
