

Lake Hayward Newsletter

July 23, 2005

From the President Tim Pelton 537.5181

With the Annual Meeting a month away (August 21st) it is time to provide each of you with an update of the proposed enhancements to take place at 1st Beach and the potential costs. Moving this program forward and funding the project must be approved by the membership at the Annual Meeting. This will be repeat information for attendees at the June Meeting however it is critical that *everyone* be up to speed on the scope and cost of the proposal.

History: For the last several years, we have discussed several options of what to do with the tennis courts and parking lot at 1st Beach. While the rest of our grounds have been improved in appearance, the 1st Beach area has continued to deteriorate and it is a shame that this dilapidated image is the first thing our visitors see as they arrive at the lake.

Last fall Andy Lord graciously volunteered to work with the Board to explore several options in a two-phased approach. Phase One worked on the proviso that the first priority was to create a drainage system to control the massive spring runoff that occurs when the stream behind the tennis courts overflows its banks in the spring thaw and in periods of heavy rain. The second phase entailed developing a comprehensive assessment and a strategic plan of how to best utilize the 1st Beach area.

Several techniques were evaluated over the winter on how to best control the spring runoff. One option considered purchasing the empty lot behind the tennis court and building a retention pond. Another approach considered building and construction of a system of dry wells beneath the parking lot to capture and disperse the water in a more controlled fashion. The final conclusion was that the simplest and most cost effective approach is to construct a small retention area on POALH property behind the tennis courts and to install a new 24-inch storm drain that will connect into the existing storm drains on Lake Shore Drive. The Town has also agreed to install a new storm drain that the proposed 24-inch pipe will drain into and this new storm drain will have a deep sump that will minimize the amount of sand, silt, and debris getting into the lake. Further the Town has agreed to clean out the existing storm drains and 'roto-rooter' between them, which will further enhance and control the flow of storm water and add some additional capacity for water storage. That is the proposed plan for Phase One.

Phase Two

Phase Two asked the question of how the Association can best utilize the area at 1st Beach. In speaking with some of the old timers, it is clear that the tennis court area was once the crown jewel of the Association and we all know it has become tarnished of late.

President's Message continued on page 4

Social Calendar

July 23rd, 7:00 p., tonight's the night! **Cake Walk** Bring plenty of quarters and a cake or two down to the Pavilion. Loads of fun and great music. This event is always a favorite. For more information call Jeff 537-5806.

Roads and Beaches

John Jacoby 537.6908

It was a big hit on Saturday I was happy to see a great turn out. The band was happy to come to the Lake to make the night a good time for all... They are hoping to be invited again next year. They told me it was fun to see everyone having such a wild time .To all the people who helped out setting up and cleaning up at the end of the night I want to thank you very much for all your help Don, Blake, Michael, Ginger, Donald, Dylan, Debbie, and Lorraine Thank you again. And thanks to Terry Brown for bringing down the lights. We are also getting "Southern Justice" to come play on August 6th I would like to see a big turn out again come down and we'll have another good time. More details to follow.....

Memorial Fund

Alice Miles 537.3611

The Lake Hayward family offers condolences to:

The Percival and Laz families of Glimmer Glen on the loss of Russel Percival.

Special thanks go out to:

Carol and Jim Moriarity of Lake Shore Drive for their donation in memory of Sue Anderson.

Catherine and Edward McGuiness of Glimmer Glen for their donation in memory of Russel Percival.

Pauline and Ray Brignano of Forest Way for their donation in memory of Roland Steben.

We received an extra special surprise this week when Rose and Al Kzart of Longwood Drive donated a 20' spun aluminum telescoping flagpole and flag in memory of Rose's parents, Bertha and Frenchie LaPointe. The pole will be placed at Little Beach and will be a beautiful tribute to Bert and Frenchie who were summer residents here at the lake for many years. Thanks so much on behalf of all!

Parking and Security

Rich Harmon 537.9202

There have been a few problems that I need to address to all of you.

1. We cannot put any items on the road at third beach anymore. The reason, told to me by the East Haddam Police, is because the road is too narrow and if there happens to be any accidents, it then becomes the Association's problem. I would love to slow the traffic down just as much as you all. So please do not place anything out there.
2. We all need to fill out the guest passes completely. That means with your last name and lake address. It must also have a valid date. If any of these items are missing, then I will be asking your guest to please remove their vehicles from the parking lot. I know that it is a pain, but please take the time to fill them out.
3. Please park in the parking lots so that we all can park and have enough room to get out.

Correction

According to Lynda E. Ryder-Munet (537.2052) our trash pick-up people will take all kinds of recycling (can's bottles, newspapers and plastics) on **Mondays**, but only the type indicated on the calendar on **Fridays**.

Classified

For sale: Fish tank with all the equipment plus solid pine cabinet. \$100 or best offer. Call Lynda at 537.2052

**Lake Hayward T-shirts: Short or Long Sleeved (\$15 or \$20.
