PRESIDENT'S MESSAGE

Greetings.

Wow, this summer has flown by. We've seen many improvements around here. New street signs, crosswalks by the beaches, third beach looks great,.. etc. Thanks to all who helped make these things happen.

In my first year as President, I've heard many comments/suggestions, both positive and negative, but there seems to be one very common one. It is "we should do this, or we should do that". Ladies and gentlemen, the we is YOU. We all are part of this association and should be involved in getting things done. Volunteering to be a board member is a noble effort and I applaud those who have served. Please don't sit back and think of things that should be done. Help get them done. If you don't feel that you could serve on the board, volunteer to head up one specific task. Anything that you could do would be greatly appreciated.

We have a full agenda for the meeting tomorrow. Looking forward to Lake Hayward week.

See you tomorrow.

Cindy

Weed Treatment

The final treatment of the lake will take place next Thursday, August 21st.

Upon inspection there are still patches of fanwort weed 'hanging on' in both the north and south ends of the lake. It is recommended that we do this final treatment to maximize the impact of our treatment program this summer.

We have not, and will not, exceed the scope of the treatment contract signed in the spring.

There will be a boat with a gasoline engine operating on the lake on Thursday and the use of the boat is part of the treatment permit issued by CT DEP.

The signs will be posted at each of the beaches recommending that recreational use of the lake for swimming or fishing be avoided on the day of the treatment.

I am hopeful that the upcoming treatment does not create an inconvenience for anyone and that we all appreciate the need to preserve our precious lake and to maximize the return on our investment.

Should anyone have any additional questions, please feel free to give me a call at 203-213-0834.

Tim Pelton

Weed Treatment Chairman
